

## **Identification cards — Integrated circuit(s) cards with contacts**

### **Part 1: Physical characteristics**

#### **AMENDMENT 1: Maximum height of the IC contact surface**

#### **First committee draft**

*Replace the Subclause 4.2.3 with :*

#### **4.2.3 Surface profile of contacts**

No point of the entire IC contact surface shall be higher than 0,10 mm above or lower than 0,10 mm below the adjacent surface of the card.

Within the range of the tolerances defined in this amendment, the card issuer may require more stringent tolerances in accordance with its sector or its application specific requirements

**WARNING** For cards which are printed after embedding, problems may be encountered when contacts are above the adjacent surface of the card.
