

Acknowledgements

This trail blazing OSCIEv2 CD is the combined effort of many hundreds of contributors and is based on the pioneering prior work in this exciting field. A particular debt is owed to:

- The Twelve Trailblazers and the GIF Expert Group: especially their Chairpersons, Secretariats (including Caterina Malandri, Florence Gras, Isabelle Scharff, Phil Perry), Editors, WG Leaders, participants and other contributors/reviewers/evangelists
- Members and editors of the CEN/ISSS Workshops E-Sign (Area K), Embedded FINREAD, eURI, and FASTEST
- Partners of the IST/eTEN projects eEpoch, EUCLID, Netc@rds, SINCE, Smart@Pay, Smart-IS
- All who reviewed / provided feedback on the interim public draft texts
- Hosts, sponsors, presenters and participants at each of the six-monthly Open Steering Group Meetings
- Members of the specialist and general eESC distribution lists
- Members of the eESC High Level Group
- European Commission management/strategists and the visionaries/contacts for each of the Trailblazer Groups and for the overall initiative (e.g. Gerard Galler, Philippe Lefebvre, Tiziana Arcarese)
- IST SmartCord Partners (Arttic, Eurosmart, Euralia,), supporters (CEN/ISSS and ETSI) and expert mission sub-contractors
- Partners from NICSS, Japan. Also a special appreciation to NICSS, NMDA (New Media Development Association) and other partners in the Japanese Intelligent Cities Project for hosting a most productive series of bilateral discussions and on-site visits in Tokyo
- Partners from NIST, USA

The energy which has been invested by many companies, organizations and individuals in the eESC initiative has generated a strong momentum for change. This is being carried forward in specific implementation and deployment projects, in standardization initiatives (e.g. CEN/ISSS WS on eAuthentication, Global Forum on Interoperable IAS), in broad information sharing and collaborative partnerships such as the Porvoo eID Group and in the consortia being advanced for further R&D and deployments under FP6 and eTEN respectively.

A heartfelt thank you to one and all.
